Education

Virginia Tech | Master of Engineering in Computer Science and Applications *Alexandria, VA| 01.2026 - 12.2026*
- **Cumulative In-Major GPA**: 3.91
- **Honors & Scholarships**: VT Xplorer's Grant(2026), VT Tech Talent Scholarships(2025)

Virginia Tech | Bachelor of Science in Computer Science *Blacksburg, VA| 08.2022 - 12.2025*
- **Minors**: Cybersecurity and Mathematics
- **Cumulative In-major GPA**: 3.54
- **Honors & Scholarships**: Fall 2025 VTURCS Undergraduate Capstone Award 1st Place(2025), VT CS|Source Scholarships(2025), Richard H.Warren Scholarship(2025, 2024), American Bureau of Shipping Scholarship (2023), Hokies Write Distinguished Student Writing Award (2022), AMC 12 Mathematics Competition 3rd Place (2022), Microsoft Intro to Programming using Python Certification(2022)

Technical Skills

- **Programming Languages:** Python, Java, JavaScript, TypeScript, SQL
- **Web:** React, Node.js, HTML/CSS
- **Tools:** Git, Splunk, MongoDB, Docker, Kubernetes
- **Spoken Languages:** English, Mandarin Chinese

Projects

Progress Towards Degree | React, Node.js, JavaScript, Kubernetes
- Developed frontend and backend features for a team-built application using agile software development that helps academic advisors monitor student degree progress.
- Published frontend/backend updates via the university's K8s platform using container image version updates.
- Earned first place in the Fall 2025 VTURCS Undergraduate Capstone competition as part of the project team.

Test4Test | React, TypeScript, Supabase
- Developed screenshot-linked feedback views for an AI-powered usability testing platform using React and TypeScript, and Jira platform for the agile software development.
- Implemented report regeneration from selected feedback and custom report naming, integrating frontend workflows with Supabase backend functions.
- Built email-sharing and recipient signup workflows, enabling invitees to access shared usability reports.

Work experience

Virginia Tech, IT Security Office | Student Intern *Blacksburg, VA| 05.2025 - Present*
- Collaborated with Prof. Randy Marchany to utilize the Splunk platform to analyze and interpret diverse security logs, including Linux syslog, Windows event logs, and Microsoft Defender for Endpoint data.
- Develop data-driven security dashboards to visualize key metrics such as the origin and status of network attack probes and endpoint management.
- Author technical reports detailing the creation process and data flow of security dashboards to ensure project continuity and standardize monitoring procedures.

EZSVS USA | Server Operations Engineering Assistant *Ashburn, VA | 05.2024 - 08.2024 & 06.2022 - 08.2022*
- Installed, configured, and maintained servers and routers in data centers for high-profile clients including TikTok USA, Tencent Ltd., and Alibaba Group.
- Monitored server fleets to ensure high uptime for public online services by checking the status of servers and resolving hardware and network connectivity issues.

EZSVS USA | Warehouse Associate *Sterling, VA| 05.2023 - 07.2023*
- Verified server shipments and maintained inventory records in Microsoft Excel, coordinating discrepancies with the warehouse manager.
